NSW · birthplace of Australian wine

The areas around Sydney have the longest history of grape growing in Australia. James Busby's original collection which arrived in Sydney in 1833, started what was to be an unimaginable progression in viticulture. These first cuttings were originally planted at the Sydney Botanical Gardens less than 500m from where we now sit. This was the most significant development in the early history of Australian wine as cuttings of these vines made their way to other parts of Australia.

We wanted to highlight the quality and progression we have made in premium winemaking in NSW and celebrate how far we have come. This is a showcase of a small selection of the 3 varieties we feel best tell our story.

Semillon

Hunter Semillon is one of the wine world's great wonders, able to morph over time from a zesty, crisp youngster into a deep golden, nutty, honey and straw-scented old-timer. Hunter Valley Semillon is the hidden gem of Australian wine.

Shiraz

Shiraz in NSW is decidedly different to other famous regions such as Barossa and McLaren Vale. In the Hunter the wines are medium-bodied with red fruit and savoury, earthy characteristics and massive ageing potential. Canberra, with its cooler hills and higher elevation, the Shiraz and Viognier blends emulate the wines of the Northern Rhône Valley with a lighter body and silky texture.

Skin Contact Whites

This section of the list is an ode to how things used to be done and how producers across the globe are again practicing. The philosophy that the entirety of the grape and not just its juice is to be used, allows every element of that grape to play a role. White wines made like red wine. Whilst some producers will simply encourage some contact to aid in preservation and structure, many wish to develop a depth and intensity of flavour, structure and excitement that most people have not had the pleasure to experience.

Radikon • Friuli-Venezia Giulia • Italy

The Radikon family's vineyard holdings cover some 18 hectares of steep slopes in and around Oslavia, near the Slovenia/Italy border. Since 1980, Stanislao (Stanko) Radikon has made the wines alongside his wife Suzana. Their son, Sasa, has taken up the reins and is now the vocal frontman for the family business.

The winery's philosophy is to always make a natural, organic wine with the least human intervention possible and with the maximum respect for the soils and nature.

These wines are the benchmark for an unwavering commitment to the natural wine movement. The famous amber wines are made with extremely long skin maceration, years of time in barrel and a long rest in bottle before release. This process reveals wines that are deeply golden in colour, firmly structured, wild and of a singular character.
