NSW • BIRTHPLACE OF AUSTRALIAN WINE

The areas around Sydney have the longest history of grape growing in Australia. James Busby's original collection which arrived in Sydney in 1833, started what was to be an unimaginable progression in viticulture. These first cuttings were originally planted at the Sydney Botanical Gardens less than 500m from where we now sit. This was the most significant development in the early history of Australian wine as cuttings of these vines made their way to other parts of Australia.

We wanted to highlight the quality and progression we have made in premium winemaking in NSW and celebrate how far we have come. This is a showcase of a small selection of the 2 varieties we feel best tell our story.

Semillon

Hunter Semillon is one of the wine world's great wonders, able to morph over time from a zesty, crisp youngster into a deep golden, nutty, honey and straw-scented old-timer. Hunter Valley Semillon is the hidden gem of Australian wine.

Shiraz

Shiraz in NSW is decidedly different to other famous regions such as Barossa and McLaren Vale. In the Hunter the wines are medium-bodied with red fruit and savoury, earthy characteristics and massive ageing potential. Canberra, with its cooler hills and higher elevation, the Shiraz and Viognier blends emulate the wines of the Northern Rhône Valley with a lighter body and silky texture.

Producer's spotlight • Egly - Ouriet

Francis Egly is a vigneron growing and crafting wines that offer remarkable intensity as well as transparency of site. Like all great French growers, the Egly philosophy can be defined by one word: terroir. Low yields, old vines, great sites, perfectly ripe fruit, extended lees aging. The Egly-Ouriet Champagnes are built on maniacal attention in the vineyards, vinification in oak, long aging in bottle before disgorgement and low dosage, all of which yield rich, vinous Champagnes of tremendous density and power

No winemaker in Champagne is more precise or meticulous, from vineyard to cellar.

These wines confirm Egly's standing among the elite grower estates in Champagne.

Producer's spotlight • Joh Jos Prüm

The Prüm family history in the Mosel dates back as early as 1156, though it was Johann Josef Prüm (1873 - 1944) who founded the estate in 1911.

This is a family of perfectionists. They are only interested in producing greatness and honouring the remarkable vineyards and ancient vines that they are blessed to farm.

In the winery the winemaking is as natural as possible with as little intervention as possible: natural yeast, unrushed fermentation and patient aging on lees—the wines are never rushed and are only bottled when ready.

These wines are the epitome of elegance: light in body but intense in flavour, exquisitely balanced and precisely tuned. Wines capable of the most extra-ordinary longevity.

Benchmark Riesling from the most Iconic Producer of the Mosel Valley.

Producer's spotlight • Domaine Vincent Dauvissat

Vincent Dauvissat is inarguably one of the greatest producers in Chablis.

Established in the 1970s by Robert Dauvissat, the Domaine has passed down from father to son for three generations.

Defined by terroir and crafted in the most caring manner, the reputation of the wines, and the domaine that makes them has become best known for the expression of place, balance and purity.

Oak is used sparingly to add complexity and dimension to these piercingly mineral and concentrated wines.

These are wines of remarkable terroir which age gracefully and develop into exciting and comprehensive wines of sophistication and charm.

SKIN CONTACT WHITES

This section of the list is an ode to how things used to be done and how producers across the globe are again practicing. The philosophy that the entirety of the grape and not just its juice is to be used, allows every element of that grape to play a role. White wines made like red wine. Whilst some producers will simply encourage some contact to aid in preservation and structure, many wish to develop a depth and intensity of flavour, structure and excitement that most people have not had the pleasure to experience.

Producer's spotlight • Radikon • Friuli-Venezia Giulia

The Radikon family's vineyard holdings cover some 18 hectares of steep slopes in and around Oslavia, near the Slovenia/Italy border. Since 1980, Stanislao (Stanko) Radikon has made the wines alongside his wife Suzana. Their son, Sasa, has taken up the reins and is now the vocal frontman for the family business.

The winery's philosophy is to always make a natural, organic wine with the least human intervention possible and with the maximum respect for the soils and nature.

These wines are the benchmark for an unwavering commitment to the natural wine movement. The famous amber wines are made with extremely long skin maceration, years of time in barrel and a long rest in bottle before release. This process reveals wines that are deeply golden in colour, firmly structured, wild and of a singular character.

Producer's spotlight • Tyrrell's • Hunter Valley

A pioneer of the Hunter Valley, Australia's oldest viticultural area, Tyrrell's wines, a by-word for the highest quality and age worthy Semillon. Today Tyrrell's still sets the benchmark for this region, producing not just Semillons, but Chardonnays and Shirazes that are amongst the very best in Australia.

Established in 1858 by English immigrant Edward Tyrrell, Tyrrell's Wines is one of Australia's pre-eminent family owned wine companies.

Tyrrell's was among the founding members of Australia's First Families of Wine, an organisation that helps to build awareness of premium Australian wines and their heritage. With a fifth generation now involved in the business, Tyrrell's will continue to remain family run, with each generation focused on passing the business to the next in better condition than they received it, all the while being guided by Edward Tyrrell's motto: "Nothing is great unless it is good."

Super Tuscan: The Unofficial Star of Italy

Super Tuscan wines embody the rebellious spirit of Italian winemakers from the 1970s.

Shattering the traditions of most classic Italian wine producers, Super Tuscans have emerged as a category of their own.

Some of these wines included French grapes and could not be classified as superior DOCGs, therefore they were named Super Tuscans to emphasize their high quality.

These are some of the most enigmatic and captivating red wines from grapes grown in the unique Italian terroir.

Mount Etna: Ancient Vines and High Altitudes

Mount Etna is Europe's tallest active volcano, with vineyards found swooping around its eastern slopes like a belt from north to south.

Because of its volcanic origin, Etna's overall soil is a mix of decomposed lava, ash, and sand, as result of eruptions dating back millennia.

Here the Nerello Mascalese grape finds its home.

It produces savoury and fragrantly mineral-tinged wines which are deeply tied to their unique place of origin.
